

PROVIDING SAFE CARE DURING THE PANDEMIC

Learn what steps we are taking to keep our staff, patients, residents and visitors safe. To read our full Site Safety Plan for this facility, please speak with the site administrator.

HOW WE ARE KEEPING YOU SAFE

- Frequent cleaning and infection prevention and control measures in between clients
- Wearing personal protective equipment as recommended by Worksafe BC and the BC Centre for Disease Control
- Pre-screening clients and visitors for COVID-19 to determine how to best support them safely
- Reconfiguring waiting and seating areas to support physical distancing
- Promoting hand hygiene practices
- Supporting care settings that are culturally safe and free of racism, discrimination and stigma

HOW YOU CAN HELP

- Please do not visit if you have a cough, fever or flu symptoms, or are ill with diarrhea or vomiting
- Clean your hands using hand sanitizer or soap & water as you enter and leave the facility, a patient room, or unit
- Maintain a physical distance of 2-metres from others
- Use a protective face mask, gloves and other protective equipment when instructed by the healthcare team
- Help us keep patient areas clean by keeping personal belongings to a minimum
- Do not touch wound dressings, lines, tubes or medical equipment
