REGIONAL PRACTICE LEAD, RESEARCH & KNOWLEDGE TRANSLATION - LONG TERM CARE, SENIORS CARE, INTERIOR HEALTH

The Long Term Care Quality Initiative (LTC-QI) launched in fall 2019, as a collaborative partnership among the British Columbia Academic Health Science Network (BC AHSN), the BC Ministry of Health, the five regional Health Authorities, and the BC research and academic communities. In this presentation, three of the regional leads will provide an overview of the development of the provincial initiative focused on translating research into practice to enhance the experiences and outcomes for residents, families and LTC staff in British Columbia.
