4,200

tonnes of
Greenhouse
Gas
emissions
prevented

Telehealth has prevented the equivalent of

250,000

hours of
travel

400

trips
around the
earth

"It's like having the patient next to you"
- Dr. Elizabeth Swiggum

Telehealth is very convenient for me. I received the same service and supports in my own community, without the hassle of traveling to Victoria"
- Client

8%

people would not have traveled to see their provider if Telehealth was not available in their community.

Keeping people in their homes
Home Health Monitoring (HHM)

- 92%** reduction in admissions post HHM
- 94%** reduction in length of stay post HHM
- 81%** reduction in ER visits post HHM
